EXPERIENCE

Everything Shelter construction company and associated projects

March - April 2024

Partnered with Everything Shelter and a marketing company to develop 3 websites and 3 subdomains

- **everythingshelter.com.ng**: Collaborated with the marketing team to develop an SEO-optimized, lead conversion website for ad campaigns
- **osokoya.everythingshelter.com.ng**: Developed a personal website for the manager.
- **tolulopeosokoya.com/djb**: Integrated payment API and store features (including delivery fees and management) to add a book purchase page to the author's website

Colloboration with Mr. lyke Pascal

Janaury 2023 - January 2024

Partnered with Pascal Ikenna, Serial Founder and senior software Developer to design and develop three websites:

- **Xoal.io**: A saas no-code platform for personalized customer journey automation.
- **Cowhouse.io**: A SaaS email sending service that simplifies transactional and marketing email delivery.
- **Ditcal.com**: Business communication platform that helps teams schedule, prepare, and follow up on external meetings.

Developed a website for Anambra Google Developers Group co-lead, Pastor Jeremiah Nwabueze.

July 2023

- **Vrealm.org.ng**: Developed a website to showcase the ministry's mission, vision, and goals, enhance online presence, and facilitate bookings for Pastor Jeremiah Nwabueze, Anambra Google Developers Group co-lead.
